About Us

Established in the year 2017, we "Inox Metaproducts Pvt.Ltd" are the manufacturer, wholesaler of a wide range of Steel Screw, Metal Nut, etc. All offered products are manufactured using quality tested components and latest technology as per industry norms. Our range has gained trust owing to the features like easy to install, durability, excellent functionality, highly efficient and trouble free working.

We wish to become a famous firm with the help of our qualified team of professionals and advanced technology. In order to manufacture these high-quality screws and nuts, we are supported by an ultra-modern infrastructure facility. This enabled us to execute our production in the desired way. Moreover, our power products meet the highest of quality standards in terms of their functionality and performance as well. We can also customize our products design and specifications as per the demand of our customers.

Under the headship of our mentor Mr. Hussain Gandhi, our organization is growing fast in this industry. He is having deep marketing knowledge and experience of this industry, which has continuously helped us design immaculate products for the clients.
